JOBST® Custom Seamless Soft

JOBST® Custom Seamless Soft is the premium custom-made compression garment for mild to moderate vascular disorders. These garments are manufactured using precision technology and exact patient measurements. The use of attractive, lightweight fabric to create an anatomically fitting compression garment provides effective management of vascular indications and a stylish look.

Features and benefits:

- Effective management for a wide range of indications
  - Available in CCL 1 (16-21 mmHg*), CCL 2 (23-32 mmHg*) and CCL 3 (34-46 mmHg*)

- JOBST Advanced Comfort®
  - Added softness, moisture wicking to keep skin cool & dry

- Multi-fiber double covered inlay yarns
  - Increased softness & improved donning

- Improved fabric distribution
  - Enhanced fit and comfort with smooth appearance

- Refined opacity
  - Covers blemishes and scars

- High stretch core yarns
  - Increased recall (stretch & recovery) to prevent sliding

- Reinforced foot zones
  - Increased strength & durability with added comfort

- Optimized knee band
  - Improved broader knitting construction and well design; for added comfort and reduced risk of sliding / biting

- Improved measuring system
  - Requires 30% fewer measurements than a conventional seamed garment

* Design Pressure

Federal (U.S.A.) Law restricts this device to sale by or on the order of a physician.

JOBST® Bellavivar®

JOBST® Custom Bellavivar® is the firm Custom garment for moderate to severe swelling of lower extremities. Bellavivar is engineered with firm fabric to provide controlled stretch and resistance for therapeutic effect.

Features and benefits:

- Firm fabric
  - Provides controlled stretch and resistance for therapeutic effect

- Effective management of a wide range of indications
  - Available in CCL 2 (23-32 mmHg*) and CCL 3 (34-46 mmHg*)

- Circular knit technology
  - Creates a seamless garment

- Variety of styles and options to satisfy patient needs
  - 3 colors and 2 thigh band options

- Easy measuring system
  - Requires 30% fewer measurements than a conventional seamed garment

Basic Styles:

- Knee Style
- Thigh Style
- Chaps Style

Thigh Band Options

- Plain thigh band with silicone
- Dotted silicone for plain thigh band
- Lace thigh band with silicone
- Silicone strips for lace thigh band

Color Options

- Sand
- Sun Bronze
- Black

* Design Pressure

Indications:

- Compression Class I:
  - Mild swelling, tired aching legs, thrombosis prophylaxis, minor-varices, post-surgery

- Compression Class II:
  - Primary varices, varices with edema, varices with pregnancy, post-sclerotherapy, post-venous ulceration

- Compression Class III:
  - Secondary varices, severe varices with edema, post-phlebitic syndrome, chronic venous insufficiency, phlebitis, thrombophlebitis and edema

Contraindications:

- Dermatitis in the acute phase
- Articular insufficiency
- Tachy Antarctica (e.g. advanced arterial disease)
- Wet dermatitis
- Untreated septic phlebitis
- Uncontrolled congestive heart failure
- Untreated septic phlebitis
- Proximal venous disease
- Cutaneous infections

Cautions / Recommendations:

- Incompatibility to fabric
- Impaired sensitivity of the limb
- Infractility (confinement to bed)
- Open wounds should be covered with an appropriate dressing before the compression garment is put on
- Ill-fitting compression garments may cause skin necrosis, pressure related peripheral nerve damage and deep vein thrombosis
- Conditions in which increased venous and lymphatic return is not desired
JOBST® Custom Seamless Soft

JOBST® Custom Seamless Soft is the premium custom-made compression garment for mild to moderate vascular disorders. These garments are manufactured using precision technology and exact patient measurements. The use of attractive, lightweight fabric to create an anatomically fitting compression garment provides effective management of vascular indications and a stylish look.
