**Step 1: Determine the band size:**

- a. Measure circumferentially below the bust where a regular bra sits.
- b. Drop the tape 2 - 3" (5 - 8cm) and measure around the bottom of the rib cage.
- c. Use the larger of these two measurements as the band size. Round odd numbers up. i.e.: 31 = 32

**Step 2: Determine the cup size:**

- a. Measure circumferentially around the fullest part of the bust.
- b. Subtract the determined band size measurement from the bust (either 1a or 1b depending on which one is larger) measurement to determine cup size.
