JOBST® Confidence
The Next Generation of Made-to-Measure Flat-Knit Compression Garments

Compression for those who love to Move Freely

Kimberly, Secondary lymphedema patient

NEW & UNIQUE
Introducing a **New Era of Comfort**

**JOBST® Confidence** helps your patients feel unrestricted, with a one-of-a-kind fit garment that’s as unique as they are. The new generation of flat-knit technology used in **JOBST® Confidence** allows for a precise fit to the real anatomical body shapes. This personally refined fit not only provides comfort, but also supports your patients with a greater degree of movement.

### The new Contour Fit technology

**JOBST® Confidence** has been expertly developed with a new knitting technology that, unlike traditional flat knit, allows the fit of the garment to adapt in more positions. This supports a true personalization of garment fit. Specially designed knitting machines were created for the **JOBST® Confidence** line to deliver contour fit.

**JOBST® Confidence is designed to:**

- ✓ provide more comfort
- ✓ support easy donning
- ✓ be more skin-friendly
- ✓ deliver improved climate control
- ✓ provide better movement
- ✓ offer a range of colours and design options
Design options available in Deco line and patient initials

Innovative knitting method allows for high ability to conform to individual body shapes

Made with conforming fabric that also gives the reassurance of firm support

Advanced moisture management system with double-layer construction for optimal wearing comfort

Flexible, conforming fabric is designed to make putting on and taking off easier

Skin-friendly fabric that meets the needs for sensitive skin, pediatric, elderly, and lipedema patients

Garment shown includes knee comfort, Deco line and patient initials.
Only JOBST® Confidence utilizes a high-performance double-layer fabric to wick away moisture from the skin and towards the garment's outer layer. This is designed to keep the skin dry and leave patients feeling comfortable all day long.

**Unique built-in Moisture Management for breathability**

**Softer yarns to support a comfortable feeling**

JOBST® Confidence is created with supple yarns that have been used with a double-layered knitting construction. This provides the flexibility your patients want when wearing compression.

**Firm support that adapts to each individual**

The innovation in JOBST® Confidence garments means that for the first time ever, the properties of the yarn adapt to the real size of any patient. This always delivers the optimal compression level according to the RAL standard. The RAL standard is used as a basic requirement for certifying medical compression stockings and guarantees the highest quality by an independent group.
JOBST® Confidence – Innovative Technology for the freedom of flexible movement
