JOBST® Educational Resources / Custom e-Shop ........................................... 19
Trust, confidence and history

• JOBST® is the #1 physician-recommended brand of medical compression legwear for the prevention, treatment and management of venous and lymphatic conditions.

• Conrad Jobst, mechanical engineer and industry pioneer, dedicated his life and expertise to inventing graduated compression garments in 1950.

• After his passing, Conrad’s wife Carolyn, assumed the presidency of the company for the next 27 years. Inspired by her late husband’s legacy, Carolyn grew the business into a global organization and extended sales to virtually every continent as the JOBST® reputation for quality grew.

Innovation

• JOBST® incorporates customer and healthcare professional involvement in the development of products. From focus groups to wash-and-wear tests, all garments go through a rigorous design process that ensures they provide the highest efficacy, safety, and satisfaction for our customers.

• Innovation is at the heart of our product excellence. Product development efforts are directed towards delivering the highest quality product with the highest assurance of medical efficacy.

Partnerships

• JOBST® is an exclusive sponsor of the JOBST® Research Grant in Venous and Lymphatic Diseases in association with the American Venous Forum Foundation.

• JOBST® supports the National Lymphedema Network and Lymphatic Education and Research Network.

• Key JOBST® stakeholders are part of the Lymphedema Advocacy Group. Their mission is to advocate for improved insurance coverage for the diagnosis and treatment of the disease.

• We are proud to have partnered with NASA to develop compression garments for astronauts for their space missions.

Education

• JOBST® Compression Institute serves as a valuable resource for fitters, clinicians, healthcare providers and caregivers interested in learning more about compression therapy and lymphatic and venous disorders.

• Our product experts, called Medical Education Advisors, and our devoted team of Sales Professionals, provide customized education and solutions for both fitters and therapists.

Social Responsibiliy

• Every year, JOBST® donates hundreds of compression garments to healthcare organizations who share our mission to help improve patient quality of life. Whether it is funding education through organizations such as the Lymphatic Education and Research Network (LE&RN) or helping those recover after a devastating natural disaster, JOBST® does not hesitate to lend a helping hand.
Advanced Wound Care Products

Cutimed offers a wide range of advanced wound care products for a variety of wound phases and exudate levels that result in effective wound healing.

**Cutimed® Siltec®**
For managing low to high levels of exudate
Cutimed® Siltec® has been designed for non-interrupted wound healing and safe fluid handling.

- Gentle adhesive silicone wound contact layer provides protection of fragile new tissue
- Absorb and retain fluid even under compression

**Cutimed® Siltec® Sorbact®**
For removing infection and exudate
Cutimed® Siltec® Sorbact® is an innovated combination of absorption and infection management. The super-absorbent particles within the foam layer effectively adjust to absorb moderate to high, viscous exudate and retain it even under compression.

- Increased absorption due to super-absorbent hot-melt stripes

**Cutimed® Sorbion®**
For managing moderate to high levels of exudate
Cutimed® Sorbion® is a line of super-absorbent dressings that absorbs and retains exudate to support a moist healing environment, even under pressure.

- Sorbion Sana helps protect healthy and sensitive tissue
- Sorbion Sachet® provides soft debridement for wound bed preparation

**Cutimed® Sorbion® Sorbact®**
For removing bacteria and high levels of exudate
Cutimed® Sorbion® Sorbact® consists of a Wound Contact Layer coated with Sorbact® Technology that safely and effectively binds bacteria without using chemicals.

- The super-absorbent core absorbs and retains moderate to high levels of exudate
- Reduces the risk of maceration even under compression
Compression Bandages

A complete range of bandage products for the management of lymphedema. Designed with the patient and therapist in mind for optimal Complete Decongestive Therapy (CDT) outcomes.

Multi-Layer Bandaging

**Comprilan®**
- Short stretch compression bandage
- 100% cotton
- Provides high working pressure and low resting pressure
- Easy care and durable

**Tricofix®**
- Lightweight absorbent stockinette
- For use under Plaster of Paris or synthetic casts
- Breathable

**Elastomull®**
- Soft comfortable bandage
- Ideal for fingers and toes
- Available in sterile or non-sterile

**Isoband®**
- Elastic multipurpose bandage
- Short stretch with longitudinal elasticity for high working pressure
- Reusable
- Breathable

**CompriFoam®**
- Open cell foam bandage
- 100% polyurethane
- Reusable

**Artiflex®**
- Non-woven padding bandage
- Used in Lymphology bandaging
- Provides padding around bony or irregular shapes
- Water shedding

**JOBST® foam**
- Kidney shaped foam pad
- 100% synthetic rubber
- Evenly distributes pressure
- Reusable

JOBST® Compri2

2-Layer Bandaging

The JOBST® Compri2 is a 2-Layer Bandage System specifically designed for easy application. It provides graduated and reliable compression for up to seven days to help achieve effective edema reduction and helps heal the wound while skin stays dry and comfortable.

1st Layer - Non Woven Padding
- **Stretchable** - simplifies application
- **Active Moisture Management** - keeps skin dry and comfortable
- **Customized Padding** - allows for anatomical adjustments and additional protection to sensitive areas

2nd Layer - Short Stretch Bandage
- **Cohesive** - delivers consistent and reliable compression
- **Adjustable** - allows modification during application
- **Visual** - indicator offers simple and effective application of correct compression
**JOBST® Farrowwrap®**
Adaptable and Affordable, Comfortable and Containing

**Product Range**

**LITE**
A double-laminated fabric suitable for mild to moderate compression needs, making it especially suitable for home care use / self-management patients. The fabric is both durable and breathable.

**Available versions**
- • Upper and lower limb
- • Ready-to-Wear (RTW)
- • Trim-To-Fit (TTF)
- • Custom-Made (CM)

20-30 mmHg Mild to moderate chronic edema / lymphedema

- Armpiece
- Armpiece
- Ambidextrous Hand Gauntlet
- Foam Squares (Ready-to-Wear only)
- Legpiece
- Kneepiece
- Thighpiece

**STRONG**
Premium fabric with strong compression and soft inner layer suitable for patients with a good limb shape and moderate to severe edema.

**Available versions**
- • Upper and lower limb
- • Ready-to-Wear (RTW)
- • Trim-To-Fit (TTF)
- • Custom-Made (CM)

30-40 mmHg Moderate to severe chronic edema / lymphedema with a good limb shape

- Footpiece
- Legpiece
- Kneepiece
- Thighpiece

**CLASSIC**
The original material that has been clinically proven over many years of use on thousands of patients worldwide.

**Available versions**
- • Upper and lower limb
- • Ready-to-Wear (RTW)
- • Custom-Made (CM)

30-40 mmHg Moderate to severe chronic edema / lymphedema

- Footpiece
- Legpiece
- Thighpiece

**MEDICARE APPROVED**

**BASIC**
A Value fabric with quality compression. Uses double-sided VELCRO® Brand product so it is possible to change band length and trim as limb reduces.

**Available versions**
- • Lower limb
- • Ready-to-Wear (RTW)

30-40 mmHg Moderate to severe chronic edema / lymphedema

* This sock is a liner and only provides compression at the foot.

- Legpiece
- Hybrid Sock*

**4000**
The inner sleeve and 4-band design make for easy application. Anatomically contoured to prevent gapping.

**Available versions**
- • Lower limb
- • Ready-to-Wear (RTW)

30-40 mmHg Moderate to severe chronic edema / lymphedema

* This sock is a liner and only provides compression at the foot.

- Legpiece
- Hybrid Sock*
JOBST® Elvarex®
The Gold Standard

JOBST® Elvarex® represents the gold standard in custom daytime garments for the management of lymphedema. These flat-knit garments offer the very best in comfort and containment for even the most severe cases. With a natural rubber core*, Elvarex® provides unsurpassed structure and control for patients of all shapes and sizes.

**JOBST® Elvarex® – Key Features**

- Flat-knit structure bridges skin folds instead of working into them
- Latex core provides superior containment and allows garment to return to original shape for extended wear
- Excellent breathability for comfort and patient compliance
- Seven compression classes for optimal therapeutic outcomes
- Vast product assortment covers a diverse range of specifications and requirements of patients
- SPF 80 UV protection

**Basic Styles**

JOBST® Elvarex® Plus
The Cutting Edge of Flat-Knit Technology

JOBST® Elvarex® Plus uses advanced flat-knitting technology to construct garments in three dimensions to more closely conform to the shape of patients’ hands and feet. These seamless garments eliminate potential irritation between the fingers and toes, and at the base of the thumb, help patients with the comfort they want and the performance they need.

JOBST® Elvarex® Soft
Gentle and Latex-Free

JOBST® Elvarex® Soft is the solution for patients wanting a softer, gentler compression garment. The latex-free, flat-knit fabric allows for easier donning and meets the specific needs of many elderly and pediatric patients, or patients with lipedema. While soft and forgiving, Elvarex® Soft still provides the containment that mild to moderate lymphedema patients need.

JOBST® Elvarex® Soft Seamless
Soft and Seamless, Where it Matters Most

JOBST® Elvarex® Soft Seamless combines all of the benefits of Elvarex® Soft with the seamless construction that patients want in a glove or toe cap. Not only are these flat-knit garments soft and latex-free, they are seamless, improving comfort by helping to eliminate potential irritation between the fingers and toes.

**JOBST®Elvarex® Soft Seamless – Key Features**
- Soft, durable, and breathable flat-knitted fabric
- Flat edge finish at fingers and toes decreases bulk and prevents curling
- Easy to don, comfortable to wear

JOBST® Custom Seamless Soft
Custom-made Compression Hosiery

JOBST® Custom Seamless Soft is a custom-made circular knit garment that looks and feels like hosiery. Appropriate for mild to moderate edema and vascular disorders, these garments wick away moisture and keep skin cool and dry. With Custom Seamless Soft, patients don’t have to compromise on fit or style to wear medical grade compression.

**JOBST® Custom Seamless Soft – Key Features**
- Multi-fiber double covered inlay yarns increase softness and improve donning
- Refined opacity covers blemishes and scars
- High stretch core yarns increase recoil (stretch and recovery) to prevent sliding
- Reinforced foot zones increase strength and durability with added comfort

JOBST® Bellavar®
Firm Circular Knit Containment

JOBST® Bellavar® is designed to manage moderate to severe edema in the legs by providing controlled stretch and resistance. A custom-made circular knit garment, Bellavar® is seamless and provides a greater level of containment than JOBST® Custom Seamless Soft.

**JOBST® Bellavar® – Key Features**
- Designed to reduce wrinkling behind the knee
- Variety of styles and options to satisfy patient needs

**JOBST® Bella™ Lite**

The Entry Point to JOBST® Quality

JOBST® Bella™ Lite upper extremity garments are designed for patients with mild to moderate lymphedema who are recently diagnosed, post-operative, or do not need the containment of a flat-knit garment. The lightweight fabric is breathable, comfortable, and easy to don – perfect for patients learning to make garment compliance part of their daily routine.

**JOBST® Bella™ Lite - Key Features**

- Fits a wide range of arm and hand shapes and available with or without a silicone band
- Two armsleeve lengths for optimal fit
- Fine seams with ultra thin and smooth compression fabric
- Glove is trimmable to fit finger length

**Colors**

---

**JOBST® Bella™ Strong**

Comfortable, Cost-effective Compression

JOBST® Bella™ Strong upper extremity garments are the ready-to-wear solution for patients who need to manage their lymphedema, but do not need the containment provided by a flat-knit custom garment. Bella™ Strong makes JOBST® quality available to a large number of patients by offering a wide range of sizes, lengths, different compression classes, and more accessible pricing.

**JOBST® Bella™ Strong - Key Features**

- Covers wide range of patient dimensions
- Easy to don, armsleeve comes with donning device
- Comfort flat wrist seam reduces rolling
- Cotton-like feel
- The Bella Strong glove utilizes advanced flat-knit technology

**Basic Styles**

- Armsleeve
- Gauntlet
- Glove

**Colors**

- **Beige**
- **Black**

**Compression classes**

- 15-20 mmHg*
- 20-30 mmHg*
- 30-40 mmHg*

*All compression shown are the mean compression for an average forearm size (armsleeve) or mean compression for an average palm size (glove / gauntlet). Not all colors and styles may be available in all compression ranges.
Breast and Chest Wall Pads

Breast and Chest Wall Pads are comfortable, foam-filled pads that conveniently fit into the Bellisse® to address specific areas of breast and chest wall fibrosis.
JOBST® SoftFit

Our innovative JOBST® SoftFit technology is a unique system of silicone yarns knitted into the welt of our compression garments. It provides gentle, seamless friction on the skin, decreasing the chance of constriction and slipping down.

LOOKS GOOD, FEELS GOOD

With the SoftFit band, garments are not only visually appealing and more comfortable to wear, they provide precisely the right amount of pressure, right where it is needed.

IMPROVED COMPLIANCE, IMPROVED QUALITY OF LIFE

Compression garments that feel comfortable lead to greater patient compliance.

MORE OPTIONS, HAPPIER PATIENTS

SoftFit Technology is offered in a wide variety of compression garments and styles.

Functional Zones for
JOBST® Elvarex® & Elvarex® Soft

Unique and innovative Functional Zones are created by the use of technologically advanced knitting techniques and specialized yarn selection. Functional Zones increase patient comfort through increased flexibility and breathability, without compromising medical effectiveness.

**JOBST® Elvarex® Functional Zones**

- Use of highly specialized yarn and knitting techniques.
- More comfortable wearing due to increased breathability and flexibility.
- Special zones combat wrinkling when bending and speed moisture dissipation.

**Functional Zone “Top Comfort Zone”**

Available in:
- Body bandage: CCL 1-3 Forte
- Corresponding leg stockings available in all CCL (1-4 Super)

**Functional Zone “Pressure Panty Elvarex® (body-bandage)”**

Available in:
- Body bandage: CCL 1-3 Forte
- Corresponding leg stockings available in all CCL (1-4 Super)

**Functional Zone “T-Heel”**

Available in:
- CCL 2-3 Forte

**Functional Zone “Elbow Comfort Zone”**

Available in:
- CCL 2
- Exception: not available for “single piece hand/arm”

**Functional Zone “Bias top end”**

Available in:
- All compression classes (CCL 1-2 Forte)

**Functional Zone “Knee Comfort Zone”**

Available in:
- CCL 2-3

**Functional Zone “Slant Foot”**

Available in:
- CCL 2-3 Forte
JOBST® Relax
Redefining Lymphedema Night Care

JOBST® Relax is the revolutionary nighttime garment that is designed for more than just sleeping. Its spacer fabric technology is unique in the marketplace and creates a supremely lightweight, flexible, and slim-line garment. Relax brings exceptional quality of life benefits and style to patients with mild to moderate lymphedema through the use of advanced knitting techniques and CoolMax® yarns. Because Relax is so breathable and flexible, patients can remain compliant through the evening hours without diminished dexterity or comfort.

**JOBST® Relax – Key Features**

- Custom-made, flat-knit technology provides consistent, gradient compression therapy and stays in place
- Textured surface and monofilament spacer combine to create differential pressure areas that stimulate lymph flow while a patient is at rest
- The integrated zipper option with stay-down puller helps facilitate donning and doffing. The fabric underneath the zipper protects the skin and promotes uniform compression.

JOBST® JoViPak®
Handmade Lymphedema Night Care

JOBST® JoViPak® garments are ideal for moderate to severe lymphedema patients who want an easy and comfortable alternative to nighttime bandaging. Unique continuous flow channeling and blended density chip foam construction allow JoViPak® garments to address even the most difficult edema and fibrotic tissue. Whether in ready-to-wear or custom configurations for every part of the body, each garment is handmade with care in Kent, Washington.

**JOBST® JoViPak® - Key Features**

- Variety of styles, sizes, and colors
- Custom and Ready-to-Wear
- Custom channeling options available
- Styles for virtually every part of the human anatomy
- Products to address any type of edema and fibrotic tissue
- Highly durable for increased longevity
- Uses up to four kinds of foam with no unpleasant chemical odors

JOBST® JoViPads

JOBST® JoViPads can be used in any area where there is a need for softening fibrotic tissue, providing pressure equalization, filling an anatomical indentation, or adding protection between skin folds.

JoViLiner Arm
Extends from the Distal Interphalangeal Joints (DIPs) to the axilla with stitching between each finger. Liners to be used under short stretch bandaging or pump appliances.

JoViLiner Leg
Upper Leg has Continuous Flow Channels from below the knee to the groin; Lower Leg from the tip of the toes to the knee; Full Leg from the tip of the toes to the groin. Liners to be used under short stretch bandaging or pump appliances.

JOBST® PitPaks

JOBST® PitPaks are filled with sterilized cherry pits and were specially designed to help address more difficult areas of fibrosis. These are an aggressive type of therapy and should only be undertaken with close therapist supervision.

Email: info@jovipak.com  Phone: 866-888-5684  Fax: 877-760-4943
**JOBST® Donning Aids**

**JOBST® Donning Gloves**
Putting on JOBST® compression garments is always easier with JOBST® Donning Gloves! They help create friction, provide grip and help to evenly distribute the fabric on the leg.

**Stocking Slip**
For use with open toe styles only. Helps the stocking slide smoothly onto the foot by reducing friction between the patient’s skin and the compression stocking.

**JOBST® Stocking Donner**
Easy to use device to help apply JOBST® compression garments. Ideal for people who have limited dexterity or have difficulty reaching their feet. Use with closed and open toe styles. Available in 2 sizes: Regular and Large Calf.

**Dycem®**
This 8” x 11” Dycem® is placed on the floor or table top to provide a non-slip surface the patient can push against as they don either an arm or leg garment. Dycem® can be easily cleaned with soap and water to renew its non-slip surface.

**Easy-Slide®**
Easy-Slide® donning aids are for upper and lower extremity garments that do not have stitched fingers or closed toes. This donning aid can be very helpful for patients with tenderness or weakness in their donning limb and are not strong enough to don the garment by themselves.

**JOBST® Easy Wash & Wear Kit**
Everything needed to help apply and extend the life of JOBST® compression garments. Kit includes JOBST® Donning Gloves, Wash Bag, Jolastic® Washing Solution, and brochure with helpful hints for putting on JOBST® compression garments.

**Accessories**

**Jolastic® Washing Solution**
This warm water wash is formulated to remove soil, body oils, and skin salts quickly and thoroughly without damaging fabric. Jolastic® Washing Solution will help extend the life of JOBST® garments.

**“It Stays!”® Roll-on Body Adhesive**
Designed to keep JOBST® Hosiery in place. Ideal for thigh high lengths that do not have a silicone band or when a garter belt is not an option. Helpful Hint: Apply vertical strips for best results.

*Caution: This product contains natural rubber latex which may cause allergic reactions.*
Schedule a Virtual In-Service with us and learn all about JOBST® products! Whether you are new to JOBST® or a longtime friend, we are dedicated to educating about lymphedema and how our products are a crucial part of decongestion and maintenance. Earn 1 Continuing Education Unit (CEU) for 1 hour of participation.

All you need is a computer with audio and a desire to provide the best products to help your patient’s manage their lymphedema. With your input our technical advisors will customize the presentation to your needs and your schedule.

To sign up for a Virtual In-Service either call 866-888-5684 or go to www.jovipak.com.

The JOBST® Compression Institute serves as a resource for healthcare providers and clinicians seeking further education about vein diseases and lymphedema. This website provides literature, videos, and links to our national affiliates. Additionally, the JOBST® Compression Institute offers a variety of nationwide workshops and continuing education classes to train you on JOBST® products and proper measuring and fitting techniques. Up to 9 hours of CEU credits available. Register at http://www.jobstcompressioninstitute.com.

**REIMBURSEMENT DISCLAIMER:**

The Centers for Medicare & Medicaid Services (CMS) uses Palmetto GBA as the Pricing, Data Analysis, and Coding (PDAC) Contractor. Their website, located at https://www.dmepdac.com, maintains a searchable database for HCPCS codes. Essity, however, makes no representations as to the accuracy of the information contained within the PDAC database, nor any representations as to whether its products are reimbursable under any government sponsored healthcare program and/or private-insurance program. It is the provider’s sole responsibility, in consultation with the insurer, if necessary, to determine and submit appropriate codes, charges, and modifiers for services rendered.

Please refer to the product label and/or package insert for full instructions on the safe use of these products.
