Making it Easier to Handle Compression Therapy

Application Aids and Accessories for JOBST® Compression Garments
Arion Application Aids

**JOBST®** is the preferred distributor of Arion products.

Arion products are made from very smooth material, treated with a special coating, which together with double-layer product design create an extremely smooth gliding product, thus significantly minimizing the friction between the compression garment and skin.

For putting **ON** and taking **OFF** compression garments

**Arion Magnide® 2in1**
- New and improved application aid
- For putting on and taking off closed toe compression stockings and tights
- All-in-one product
- User-friendly donning mechanism using own body weight

---
**METHOD 2**

1. Place your JOBST® Stocking Donner.
2. Continue to slide the stocking upward movement until the stocking must face the back of donner.
3. While sitting or standing (which ever is more comfortable), insert the heel into the stocking until your foot is on the floor.
4. Grasp the padded handles and gently pull the JOBST® stocking down over the semi-circle with the top of the semi-circle.
5. Once the donner is free of the stocking, put it aside.
6. Be sure the heel of the stocking is centered and even over the semi-circle. The heel of donner® Stocking Donner.

**JOBST® Stocking Slips**

- Easy-to-use device to help apply JOBST® Hosiery
- Ideal for people who have limited dexterity or have difficulty reaching their feet

Warnings for Arion Application Aids

• Do not step on the product. The highly slippery material makes it a slipping hazard.

• The Magnide®, Magnide® 2in1 and the SlideX® contain several magnets. For this reason, keep this product away from pacemakers and defibrillator. The magnetic field may interfere with the proper operation of this equipment (minimum distance = 30cm)

• When using the product it is important to use the correct size for you. Using an incorrect size will prevent the product from working properly, and it may become damaged or wear out too quickly. The correct size is determined by your shoe size.

• Wear special rubber gloves when donning or doffing. This gives you maximum grip on the stocking, and reduces the physical strength needed.

• This product is guaranteed for a period of six months from the date of purchase against defects resulting from faulty material or construction. Within the guarantee period, the product will be exchanged free of charge in the case of manufacturing and/or material defects. Any exchange under the guarantee will only be carried out if it can be demonstrated by means of a purchase receipt that the date on which the complaint was lodged falls within the guarantee period. To use this service, please contact your supplier. You are asked to return the product washed and to follow the washing instructions.
